— Examination

2nd July, 2025 at University of Toyama

《Application Guidelines》

We have two enrollment options for our academic year 2026: one starts in April 2026 and the other in October 2025.

Global Sustainability Science Program (GSSP)

- Degree Awarded: Master of Sustainability Science
- Duration: Two years

Note: For those who reside overseas and have difficulty coming to University of Toyama due to unavoidable circumstances, it is possible to take the examination online.

The Global Sustainability Science Program offers an interdisciplinary approach to addressing current societal problems by nurturing human resource capacity and formulating strategies for future sustainable pathways.

The master's programme focuses on global environmental challenges and societal transformations from a local to a worldwide scale through linking social and natural sciences. Our teaching and research profile combines forward-thinking scientific knowledge across inter- and multidisciplinary academics in sustainable development.

Through this program, students will learn to develop skills to design and communicate solutions to sustainability challenges and deepen their understanding of the role of sustainability studies in addressing current issues of global change, creating future pathway as sustainable development experts.
